

More Security. More Value.

Security solutions for your company's
valuables – today and everyday.

orfix – about us

Secure wherever security is required.

As our world becomes more complex, the banks, providers of cash and valuables services, businesses and institutions face ever increasing security demands. As a leading provider of security and prevention solutions, orfix offers protecting systems which can be relied upon. orfix serves the entire spectrum of businesses which deal with money and objects of value every day, where security and discretion are the highest priorities.

orfix: facts and figures

- **Experience since 1910**
- **More than 10,000 clients and customers trust orfix**
- **Know-how in 37 countries**
- **More than 2,000 products covering all aspects of protection and prevention**
- **Over 100 employees in production and sales**

A tradition of security.

Since 1910, orfix has stood for secure handling of money and valuables. Whether counting, packaging, tamper-proof transport and storage or surveillance – orfix offers innovative concepts which measurably increase security. orfix solutions meet the highest standards and guarantee absolute reliability.

Security through expertise.

Only people who know their products inside out can be competent partners for their customers. orfix produces the majority of its articles efficiently and cost-effectively in its own factories. Individual adaptations, customer-focussed services and quick responses to our customers' needs make orfix the reliable and competent partner of all who are responsible for security and protection.

orfix – our areas of excellence

One-Stop Security.

orfix • Cash Packaging

Those who think cash packaging think orfix. From manual coin wrapping paper, coin wrapping rolls, banknote wrappers, coin tubes to vacuum bags and PE film rolls – our extensive range of high quality money packaging materials offers you solutions which are optimised for use and meet all international standards.

orfix • Cash Processing

Be sure. With orfix counterfeit detectors, the authentication of banknotes becomes mere child's play – reliable, robust and safe at the point-of-sale as well as in back-office. Our coin and note-counting machines also have numerous options: from robust tally counters to integrated counterfeit checking, covering the entire spectrum of professional money handling.

orfix • Security Sealing

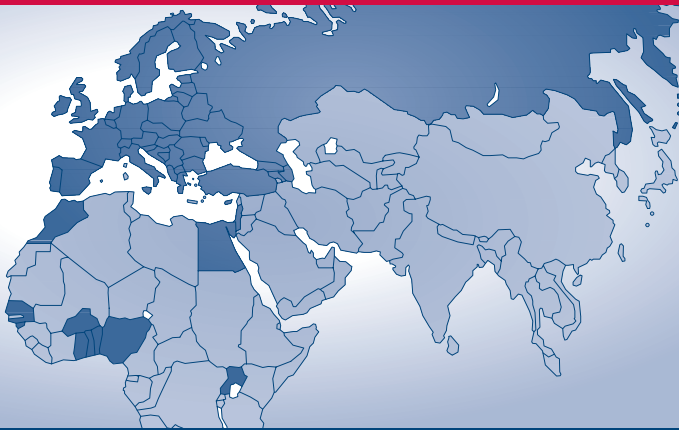

For tamper-proof storage or transport of valuable goods, customers place their trust in orfix solutions. Our product range here includes security bags, reusable bags, adhesive seals and secure tamper indicative seals for all kinds of containers – customised on request.

orfix • Smart Protection

VisualEyes® – the innovative video surveillance and alarm system from orfix – protects buildings, industrial facilities and public spaces effectively against break-ins, theft and terrorist threats. With efficient and detailed video analysis you can receive instant information and warnings of dangerous situations and react when under threat.

orfix • Services & Solutions

Quick reactions, rapid implementation of our customers' wishes and a continual improvement of our own performance – orfix is constantly raising the standard of service. Profit from our modular service system and simplify your purchasing processes. Order ready-to-use products, available 24-7, from our online shop (www.orfix.com) and save money on your purchases and logistics.

orfix – our network

Security. Worldwide.

orfix owns production and distribution companies in Germany, France, Italy, Poland, and Russia. Our products and solutions are available in many other countries through our authorised agents. For security of your valuables – get in contact with us.
